

OREXI

A 3g-powder stick to be diluted in 150 mL of water. Drink immediately.

Orexì is a nutricosmetic food supplement in the form of a red fruit-flavored drink. It helps moderate appetite, fights snacking and limits compulsive food intake while on an energy restricted diet.

Instructions for use

Take a maximum of 3 sticks per day.

Orexì helps:

- Control appetite for 1-2 hours
- Supports your slimming protocols

OREXI is high in chromium, iodine and fibers. It is also low in calories as it is sugar free.

One stick provides less than 0.35g of sugar.

Ingredients:

Konjac gum, wheat dextrin, flavourings, acids: citric and malic acids, fructose, maltodextrin, anti-caking agent: silicon dioxide and magnesium carbonate, beetroot concentrated juice, colour: beta-carotene, sweeteners: sucralose and potassium acesulfame, Fucus thallus dry extract (carrier: maltodextrin), chromium chloride. Contains: gluten (wheat).

LIPOMION

A 5g-powder stick to be diluted in 200mL of water.

This instant food - supplement drink, enhances lipid metabolism and regulates your glycaemic profile. An instant pleasure, which supports your slimming program, on the go.

Instructions for use

Take a maximum of 3 sticks per day.

Nutritional claims

- It is high in calcium and chromium.

It also contains green coffee (non torrefied coffee) and L-Carnitine.

Ingredients:

Wheat dextrin, milk minerals, acids: citric and malic acids, green Coffee seed dry extract*, flavourings, green Tea leaf dry extract, Guarana seed dry extract**, L-carnitine, anti-caking agent: silicon dioxide, caffeine, colour: beta-carotene, sweeteners: sucralose and potassium acesulfame, chromium chloride*.

*carrier: maltodextrin

**carrier: dextrin

DERMAMIN

A 6g-powder stick to be diluted in 100 ml of water.

Dermamin is a nutricosmetic food supplement, designed to help hyperpigmented skin providing a beautiful and uniformed skin complexion. It integrates a unique and clinically proven active ingredient: Pycnogenol pine bark extract. Dermamin also combines high quality vitamins C, E and a pomegranate extract for a synergic antioxidant action.

Dermamin helps:

- Dischromias by reducing hyper-pigmented patch size
- To lower pigments' intensity
- To protect skin against UV-radiation

Dermamin is an instant drink which helps your skin look naturally younger, more radiant, smooth and flawless.

Recommendations for use

2 sticks per day for 1 month.

Ingredients:

Maltodextrin, natural apple flavouring with other natural flavourings, fructose, Pomegranate fruit extract (carrier: maltodextrin), acids: malic and citric acids, Maritime Pine bark extract, anti-caking agent: silicon dioxide, vitamins (C, E), sweeteners: sucralose and potassium acesulfame, colour: beta-carotene.

COLLAGONO

A 6g-powder stick to be diluted in 200 ml of water.

Collagono is the latest in nutricosmetic food supplements, which taken to enhance skin's firmness and health, from the inside. It integrates a unique and clinically proven anti-aging ingredient: Peptan™ Collagen.

Collagono has been scientifically proven and clinically shown to:

- Improve skin's moisture level
- Improve skin's smoothness
- Improve skin firmness
- Prevent the formation of deep-wrinkles

Recommendations for use

2 sticks per day morning and evening, for 3 months.

Ingredients:

Fish hydrolyzed collagen, acid: sodium citrate, natural grapefruit flavourings with other flavourings, fructose, anticaking agents: magnesium carbonate and silicon dioxide, sweeteners: potassium acesulfame and sucralose, colour: beta-carotene, maltodextrin, beetroot concentrated juice. Contains: fish collagen

CYCLOFORO

A 7g-powder stick be diluted in 1.5 L water.

Cycloforo is nutricosmetic food supplement, with draining properties, in the form of a delicious, sweet drink. The light peach-tea flavor and the slightly sweet taste, make it your slimming partner which will support you all day long.

Cycloforo helps:

- Good blood circulation and strengthens the immune system
- To enhance drainage.
- To enhance detoxification.
- The proper kidney and bladder function

Instructions for use

For an optimal effect, take one stick a day in 1.5 L water.

Ingredients:

Maltodextrins, black Tea leaf dry extract, flavouring, Cherry stalk dry extract, Meadowsweet aerial part dry extract, Dandelion root dry extract, Ash leaf dry extract, Black elder flower dry extract, green Tea leaf dry extract, Fennel fruit dry extract, powdered Apple cider vinegar, Hibiscus flower dry extract, Cactus fruit dry extract, anticaking agent: silicon dioxide, sweeteners: sucralose and potassium acesulfame, gum arabic, dextrin.

MASKS		
MASK TYPE	BENEFITS	USE
Vitamin C Mask	Re-Hydrates, Regenerates and Restructures Skin, Protects from harmful UVA/UVB rays and Oxygenates, Stimulates and Regenerates Skin Cells. Controls Hyperpigmentation	Anti-aging, Flacid Skin, Anti-radicals, Anti-oxidant, Melasma, Stretch Marks, Acne, after Laser Resurfacing, Peels etc.
Botolift Mask	Re-Hydrates, Reduces Wrinkles	Wrinkles, Hydration, after Laser, Peels etc.
Calming Mask	Re-Hydrates, Regenerates and Restructures Skin, Improves Skin Texture, Nourishes and Moisturizes, Stimulates Cell Regeneration Rebalances Moisture and Lipid Loss	Hydration, Anti-aging, Melasma, Acne, Hydration after, Peels, Ulcers, Scars, after Laser, Peels etc.
Antioxy Mask	Re-Hydrates, Regenerates and Restructures Skin, Protects from harmful UVA/UVB rays and Oxygenates, Stimulates and Regenerates Skin Cells. Controls Hyperpigmentation	Hydration, Anti-aging, Anti-oxidant, Melasma, Stretch Marks, Acne, after Laser Resurfacing, Peels etc.
LRC	Calms, Rebalances Moisture & Lipid Loss	Hydration, Anti-aging, after Laser, Peels etc.

MELA

5 ml vial / 10 vials in a box

It brightens the skin with the use of antioxidants and Growth Factors. Enhances skin elasticity and hydration, rebalancing skin's health.

Method of application:

According to skin care protocols with Fraxpeel methods, Fractional RF, electrophoresis other non irritating techniques. 2,5 ml per session.

Combinations:

- Botulinum Toxin type A
- Fillers
- After peeling applications
- Mesorex, RF, Laser fractional resurfacing

Home Protocols:

Vit. C Plus (am), Enriched Serum (pm)
Brightening Forte Gel (am, pm)

Ingredients:

Aqua / Water, Ethyl Ascorbic Acid, Alpha-Arbutin, Tricholoma Matsutake Extract, Glycyrrhiza Glabra Root Extract, Glycyrrhiza Uralensis Root Extract, Oligopeptide-34, Glutathione, Sodium Bicarbonate, Niacinamide, Sh-Polypeptide-2

BOTOLIFT

5 ml vial / 10 vials in a box

It reduces wrinkles, improves skin tone and hydration

Method of application:

Use to targeted areas in combination with Fractional therapies electrophoresis other Fraxpeel methods etc.

TRIHO

(Anti-hair Loss) 5 ml vial / 10 vials in a box

Nourishes and improves hair health and scalp condition.

Method application:

Use on scalp and targeted area with mesorex, RF, Fraxpeel method, laser LLLT. 2,5 ml per session.

Combinations:

Mesorex, RF, LED

Home protocols:

Erythros Gel (am, pm)

Ingredients:

Aqua / Water, Sodium Dihydrogenphosphate Dihydrate, Potassium Chloride, Sodium Hydroxide, Calcium Chloride, Glutamine, Magnesium Sulfate, Aminobutyric Acid, Benzalkonium Chloride, Sodium Ascorbate, Alanine, Lysine, Arginine, Valine, Histidine, Leucine, Threonine, Isoleucine, Tryptophan, Phenylalanine, Tyrosine, Glycine, Serine, Cytosine, Glutathione, Adenosine Cyclic Phosphate, Niacinamide, Aspartic Acid, Cystine, Thymine, Cooper Tripeptide-1, Glutamic Acid, Nicotinamide Adenine Dinucleotide, Ornithine HCl, Proline, Taurine, Methionine, Hydroxyproline, Coenzyme A, Polysorbate 80, Thiamine Diphosphate, Disodium Flavin Adenine Dinucleotide, Alcohol Denat., Thiamine Nitrate, Retinyl Palmitate, Cyanocobalamin, Aminobenzoic Acid, Inositol, Pyridoxine HCl, Phenoxyethanol, Glycerin, Tocopherol, Calcium Pantothenate, Riboflavin, Menadione, Folic Acid, Biotin, Sodium Oleate, Disodium EDTA, Glycine Soja (Soybean) Oil, Hydrogenated Lecithin, Sh-Polypeptide-9, Sh-Oligopeptide-2, Sh-Polypeptide-1

Combinations:

- Botulinum Toxin type A
- Fillers
- After peeling applications
- Mesorex, RF, Laser fractional resurfacing

Home Protocols:

Botolift Cream (am),
Enriched Serum (pm)

ZOI PLUS

(0,6% Hyaluronic Acid) 5 ml vial / 10 vials in a box

Enhances skin health

Method of application:

According to skin care protocols and in combination with Fraxpeel methods, Fractional laser, Fractional RF etc 2,5ml per session.

Combinations:

- Mesorex, RF, Ultrasound and other slimming protocols
- Botulinum Toxin type A
- Fillers
- After peeling applications
- Mesorex, RF, Laser fractional resurfacing

Home protocols:

Erythros Gel (am)
Vitamin CS Serum (am)
Enriched Serum (pm)

Ingredients:

Aqua / Water, Sodium Chloride, Potassium Sorbate, Sodium Benzoate, Potassium Chloride, Sodium Hyaluronate, Calcium Chloride, Glutamine, Magnesium Sulfate, Cyanocobalamin, Sodium Ascorbate, Alanine, Arginine, Lysine, Sodium Bicarbonate, Valine, Leucine, Histidine, Glutathione, Threonine, Tryptophan, Isoleucine, Phenylalanine, Tyrosine, Glycine, Polysorbate 80, Serine, Aspartic Acid, Cystine, Niacinamide, Adenosine Cyclic Phosphate, Asparagine, Glutamic Acid, Nicotinamide Adenine Dinucleotide, Ornithine HCl, Proline, Methionine, Taurine, Hydroxyproline, Coenzyme A, Flavin Adenine Dinucleotide, Disodium Salt Hydrate, Retinyl Palmitate, Thiamine Nitrate, Inositol, Pyridoxine HCl, Riboflavin, Folic Acid, Biotin, Calcium Pantothenate, Tocopherol

Ingredients:

Aqua / Water, Sodium Chloride, Glycerin, Sodium Hyaluronate, Caprylyl Glycol, Sodium Bicarbonate, Phenoxyethanol, Acetyl hexapeptide-8, Pentapeptide-18, Glycine Soja (Soybean) Oil, Sodium Oleate, Disodium EDTA, Hydrogenated Lecithin, Acetyl Octapeptide-3, Sh-Oligopeptide-2, Sh-Polypeptide-1, Sh-Oligopeptide-1

LIPO

10 ml vial / 10 vials in a box

Anticellulitic – Lipolytic, Antiradical effect

Method of application:

Use on targeted area with Fractional therapies electrophoresis, fraxpeel methods improving skin bio-availability of product

Combinations:

Mesorex, RF, Ultrasound and other slimming protocols

Home Protocols:

Body toning cream

Ingredients:

Aqua / Water, Phosphatidylcholine, Sodium Deoxycholate, Carnitine, Benzyl Alcohol, Agar, Alcohol Denat., Propylene Glycol Diethylexanoate, Cynara Scolymus Leaf Extract, Sodium Hydroxide, Gelidium Cartilagineum Extract, Sh-Oligopeptide-2

YALI

5 ml vial/ 10 vials in a box
(Hyaluronic Acid)

Hydration, wrinkle reduction, tightening.

Method of application:

According to skin care professional protocols and in combination with Fraxpeel methods, Fractional Lasers, Fractional RF, Electrophoresis etc. 0,5 ml per session is recommended.

OPHTHALMOS

(GF Complex) 5 ml vial / 10 vials in a box

Rebalances skin health around the eye area. Hydrates dry skin and helps maintain optimum moisture balance. It may help reduce dark circles.

Method of application:

Use on targeted areas in combination with Fraxpeel, Mesorex method, RF or other regenerating techniques. 1,5 ml per session.

Combinations:

- Botulinum Toxin type A
- After peeling applications
- Mesorex, RF, Laser fractional resurfacing etc.

Home protocols:

Antiox Cream (am)

Ingredients:

Aqua / Water, Methylsilanol Mannuronate, Alcohol Denat., Cynara Scolymus Leaf Extract, Propylene Glycol, Sodium Hyaluronate, Glycerin, Magnesium Ascorbyl Phosphate, Steareth-20, Coumarin, Troxerutin, Ginkgo Biloba Leaf Extract, Potassium Sorbate, N-Hydroxysuccinimide, Phenoxyethanol, Palmitoyl Tripeptide-1, Chrysin, Sorbic Acid, Palmitoyl Tetrapeptide-7, Acetyl Tetrapeptide-5, Caprylyl Glycol

Combinations:

- Botulinum Toxin type A
- Fillers
- After peeling applications
- Mesorex, RF, Laser Fractional Resurfacing etc

Home Protocols:

Botolift Cream (am),
Enriched Serum (pm)

RAVDOS

10 ml vial / 10 vials in a box

Improves skin tension, elasticity and hydration. Ideal for stretch marks.

Method of application:

Use on targeted areas with Fractional therapies electrophoresis Mesorex/ RF, Fraxpeel techniques etc. 10ml per session is recommended.

Combinations:

- With all peelings
- With fractional protocols
- With Mesorex, RF, US etc.
- Body slimming + toning creams

Home protocols:

Repair Complex Gel (am)
Enriched Serum (pm)

Ingredients:

Aqua / Water, Propylene Glycol, Soluble Collagen, Butylene Glycol, Glycerin, Butylene Glycol, Pseudoalteromonas Ferment Extract, Caprylyl Glycol, Sodium Hydroxide, Hydrolyzed Elastin, Hydrolyzed Wheat Protein, Citric Acid, Hydrolyzed Soy Protein, Sodium Benzoate, Tripeptide-1, Centella Asiatica Extract, Potassium Sorbate, Phenoxyethanol, Lecithin, Xanthan Gum, Tetrapeptide-21, Tripeptide-10 Citrulline, Carbomer, Dextran, Triethanolamine

DAY PEEL

Day Peel exfoliating treatments are appropriate for all skin types, conditions. The treatment is ideal for high sensitive skin types, as it has little to no stringing sensation.

Composition 10% TCA

JESSOL PEEL

Jessol peel is a superficial medium-depth peel

It contains:

Salicylic acid: It has keratolytic and comedolytic effect. It clears and unclogs pores, reduces oil production and eliminates inflammation.

Lactic acid: It exfoliates skin's surface to rebalance skin health, improving skin texture and reducing sun damage and premature aging.

Citric acid: It accelerates epidermal exfoliation increasing the levels of brightness and softness. It helps to retain water increasing skin hydration. Powerful antioxidant.

Ingredients: salicylic 14% + lactic 14% + citric 8%

ANSSOL PEEL

Anssol is a combination of Salicylic acid 20% and Azelaic acid 20%.

Salicylic Acid reduces the cohesion of corneocytes causing the exfoliation of dead and damaged cells. It penetrates deeper into the sebum filled follicles cleaning clogged pores. Salicylic has been effectively used for the treatment of acne.

Azelaic acid favours the re-established and disturbed follicular keratinization with bacteriostatic effect. Azelaic acid reduces inflammation and inhibits Tyrosinase action in the melanogenesis process. Azelaic acid has antioxidant properties being an oxygen free-radicals capture. Ideal for rosacea treatments.

Ingredients: Salicylic acid 20% + Azelaic acid 20%

TRI PEEL

Tri Peel exfoliating treatments are appropriate for all skin types, conditions. It has little stringing sensation. It targets patients that want gradual lightening and instant tightening.

Composition 20% TCA

MANSSOL PEEL

Manssol peel is indicated on photo-aging and oily skins

Manssol peel does not penetrate fast into the skin therefore irritation is minimal. It is recommended for patients with sensitive skins and darker phototype V-IV.

It is known that Mandelic peel also promotes collagen production, strengthens the dermal matrix, skin elasticity and luminosity. Proven for keratolytic, anti-seborrheic and anti-bacterial activity.

Ingredients: mandelic 40% / mandelic 50%

MASTER PEEL

APPLICATION (Master Peel)

The purpose is to create a colour coating for easy identification. Apply gently to all areas. Avoid contact with eyes and other mucous membranes.

Composition: Master peel 20% TCA

Composition: Master peel 30% TCA

Composition: Master peel 40% TCA

PENT PEEL

Pent Peel exfoliating treatments are appropriate for compacted skins. It gives stringing sensation.

Composition 30% TCA

PYRSSOL PEEL

Pyrrsol peel is a medium-depth peel.

It is keratolytic and penetrates rapidly and deeply into the skin, rendering very effective results. It also contains Lactic acid which is known to strengthen skin's barrier function, preventing from water loss and promoting skin hydration. It allows an exfoliation without high levels of dryness. It is known Lactic acid increases the production of dermal components, especially Hyaluronic acid, improving skin texture, smoothness etc. Preventing from the thickening of the upper layers of the epidermis.

It is known that Pyruvic acid has the ability to stimulate new collagen production and helps the formation of elastin fibers and glycoproteins.

Ingredients: pyruvic 40% + lactic 10%

SALICYLIC ACID

Salicylic acid reduces the consistency of corneocytes. It is ideal for oily and acneic skin.

It is known that Salicylic acid penetrates deeper into the sebum and cleans clogged pores, improving acne prone skin by controlling oil secretion.

It reduces irritation due to its anti-inflammatory properties.

Ingredients: salicylic 30%

PROFESSIONAL PEELING PRODUCTS

Our professional revitalizing peels, are superficial peeling agents.

Dermagenetic peelings are offered in a variety of strengths designed for treatment flexibility and a variety of skin types. Designed to reduce the visible signs of aging.

LRC. This is a moisturizing serum enriched in emollient with antioxidant nutrients which stop the effect of peeling, blocking their actions and restoring skin's water level.

DERMAGENETIC BIOSTIMULATION PRODUCTS

Skin metamorphosis starts with restoring and maintaining skin health by cell regulation, in synergy with laser procedures. Dermagenetic products improve elasticity, enhance the neo-angiogenesis, visibly remodel skin tone and neutralize free radicals.

Our products contain mainly:

- Vit E
- Vit A
- Vit C (L ascorbic acid)
- GF complex
- Polyphenols (plant)
